

SCHOOL'S OUT FOR SUMMER

STAY SAFE, STAY AWAY

Summer Safety Notice - Farrans Construction

KEEPING EVERYONE SAFE

Farrans are committed to ensuring everyone's safety. Construction sites are dangerous, unauthorised entry can result in serious injury. This summer we urge everyone to stay safe and stay away.

STAY SAFE THIS SUMMER

Please keep children away from building sites

Please keep children away from construction sites at all times. On average every year, 1 child is killed and 25 are injured as a result of illegally accessing and playing on construction sites.

Construction sites are dangerous and should not be accessed by any members of the public.

A construction site can present many hazards to anyone illegally accessing it, including falls into deep excavations, being struck by falling objects, dangerous materials and large vehicles / heavy plant.

We plan for both the safety of our workforce and the safety of the public. Our workforce have been specially trained to stay safe on our sites. We also ensure we have all the safeguards at our disposal in place to protect every member of the public around our sites. But we still need your cooperation to **STAY SAFE AND STAY AWAY.**
