

Can you help us make our concrete more jungle?

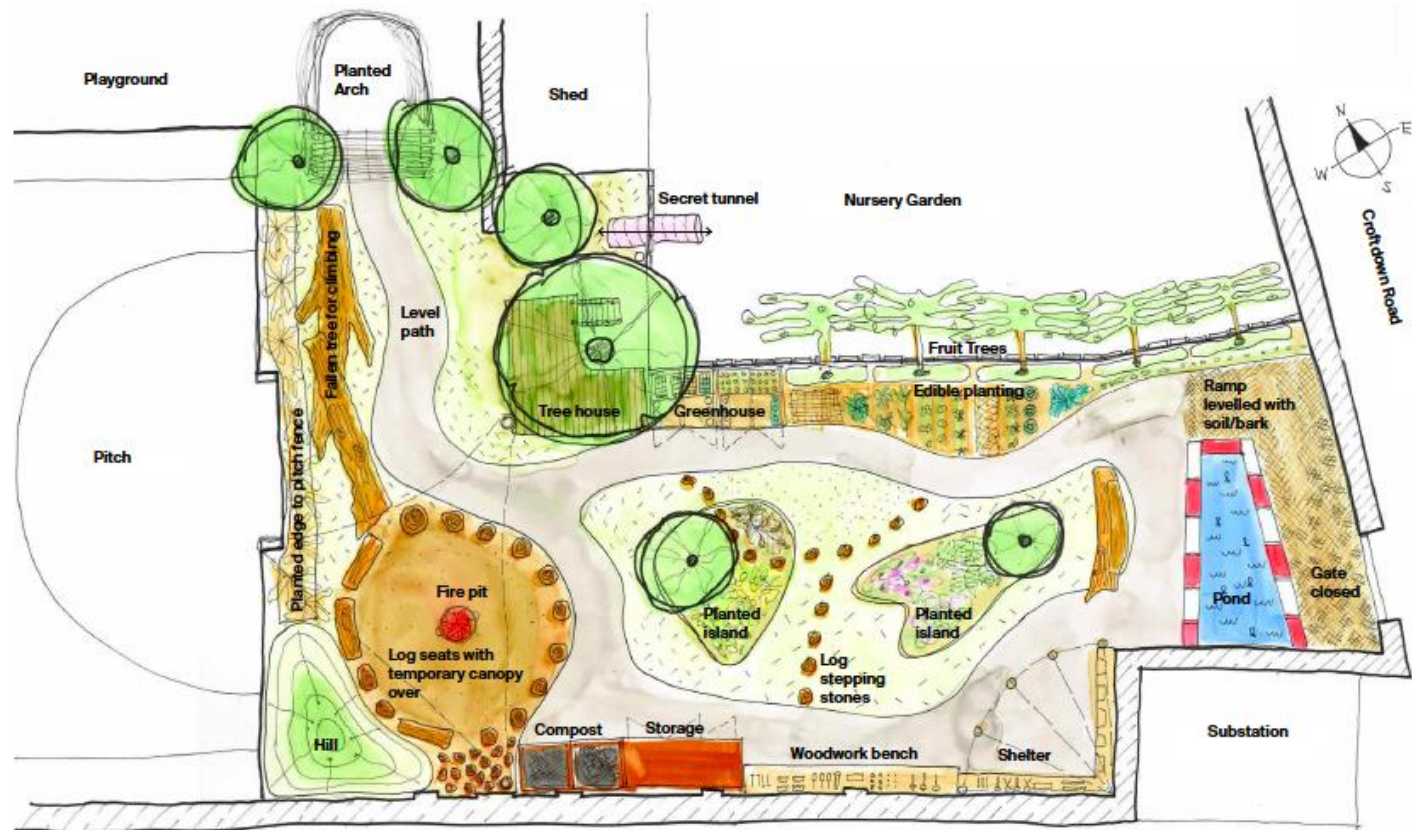

At Brookfield Primary School, we work hard to give local children the best possible learning experiences to support their education and wellbeing. As part of this we believe connecting with nature is crucial for children's development.

In 2022, students lobbied our Head Teacher Laurel to set up a new garden space with more plants and wildlife in the playground. Responding to this, in the last year we have made a pupil-led design to replace an area of tarmac playground with a forest garden for learning and play.

Can you help?

A Forest Garden fit for our kids!

Children, staff, and parents have come together (with the help of two volunteer architects) to design an incredible Forest Garden with:

- trees
- pond
- greenhouse
- biodiversity observation platform
- fallen tree for climbing
- native hedgerow
- composting area
- woodworking area
- and more!

The area of playground as it looks now.

The garden will be used daily for: play time, lessons, forest school and gardening sessions. It will have a HUGE impact on our pupils' learning and wellbeing – with 11,000 unique engagements with the forest garden estimated per year.

To make this garden grow we need to raise £40,000!

Give a little, grow a lot.

Brookfield Primary School's Forest Garden will benefit hundreds of children in the local community for years to come.
